CPC; O'Toole; Rempel Act As Gatekeepers In "Pandemic" Opposition

This is a screenshot from November 3rd from Health Canada. It states that 200,000 people in Canada have already recovered from this virus. Yet, this is will never be mentioned by Conservatives, nor will they ever question the bogus science behind the pandemic narrative.

Opposition Motion (Instruction to the Standing Committee on Health (COVID-19 pandemic) (as amended))
Motion Sponsor:
Hon. Michelle Rempel Garner

MOTION TEXT

That the Standing Committee on Health be instructed to undertake a study on the emergency situation facing Canadians in light of the second wave of the COVID-19 pandemic, and that this study evaluate, review and examine any issues relevant to this situation, such as, but not limited to:

.

(a) ***rapid and at-home testing approvals*** and procurement process and schedule, and protocol for distribution;

.

(b) ***vaccine development*** and approvals process, procurement schedules, and protocol for distribution;

.

(c) federal public health guidelines and the data being used to inform them for greater clarity on efficacy;

.

(d) current long-term care facility COVID-19 protocols as they pertain solely to federal jurisdiction;

.

(e) the availability of ***therapeutics and treatment devices for Canadians diagnosed with COVID-19***;

.

(f) the early warning system, Global Public Health Intelligence Network (GPHIN);

.

(g) the government's progress in evaluating pre- and post-arrival ***rapid testing for travellers***;

.

(h) the ***availability of paid sick leave*** for those in need, including quarantine and voluntary isolation;

.

(i) the adequacy of ***health transfer payments to the provinces***, in light of the COVID-19 crisis;

.

(j) the impact of the government's use of ***World Heath Organization (WHO) advice in early 2020 to delay the closure of borders and delay in the recommendation of wearing of masks*** on the spread of COVID-19 in Canada;

.

(k) the Public Health Agency of Canada's ***communication strategy*** regarding COVID-19;

.

(l) the development, efficacy and use of data related to the government's ***COVID Alert application***;

.

(m) Canada's level of preparedness to respond to another pandemic;

.

(n) the availability of personal protective equipment (PPE) in Canada and a review of Canada's emergency stockpile of PPE between 2015 and present;

.

(o) the government's ***contact tracing protocol***, including options considered, technology, timelines and resources;

.

(p) the government's consideration of and ***decision not to invoke the federal Emergencies Act***;

.

provided that,

.

(q) this study begin no later than seven days following the adoption of this motion;

.

(r) the committee present its findings to the House upon completion and, notwithstanding

Standing Order 109, that the government provide a comprehensive response to these findings within 30 days;

.

(s) evidence and documentation received by the committee during its study of the Canadian response to the outbreak of the coronavirus, commenced during the first session of the 43rd Parliament, be taken into consideration by the committee in the current study;

.

(t) that each party represented on the committee be entitled to select one witness per one-hour witness panel, and two witnesses per two-hour witness panel;

.

(u) an order of the House do issue for all memoranda, emails, documents, notes or other records from the Office of the Prime Minister, the Privy Council Office, the office of the Minister of Public Safety and Emergency Preparedness, the office of the Minister of Health, Health Canada and the Public Health Agency of Canada, concerning options, plans and preparations for the GPHIN since January 1, 2018;

.

(v) an order of the House do issue for a record of all communications between the government and the WHO in respect of options, plans or preparations for any future operation, or absence thereof, of the GPHIN, since January 1, 2018;

.

(w) an order of the House do issue for all memoranda, emails, documents, notes and other records from the Office of the Prime Minister, the Privy Council Office, the office of the Minister of Public Services and Procurement, the office of the Minister of Health, Health Canada and the Public Health Agency of Canada, concerning plans, preparations, approvals and purchasing of COVID-19 testing products including tests, reagents, swabs, laboratory equipment and other material related to tests and testing applications used in the diagnosis of COVID-19, since March 19, 2020;

.

(x) an order of the House do issue for all memoranda, emails, documents, notes and other records from the Prime Minister's Office, the Privy Council Office, the office of the Minister of Public Services and Procurement, the office of the Minister of Health, Health Canada and the Public Health Agency of Canada concerning plans, preparations and ***purchasing of PPE, including gowns, gloves, masks, respirators, ventilators, visors and face shields***, since March 19, 2020;

.

(y) an order of the House do issue for all memoranda, e-mails, documents, notes and other

records relating to the COVID-19 Vaccine Task Force and its subcommittees;

.

(z) an order of the House do issue for all memoranda, e-mails, documents, notes and other records relating to the Government of ***Canada's COVID-19 vaccine distribution and monitoring strategy***, including, but not limited to anticipated timelines for the distribution of an approved COVID-19 vaccine across Canada and the prioritization of population groups for vaccination;

.

(aa) minutes of meetings of the cabinet and its committees be excluded from this order and all documents issued pursuant to this order (i) be organized by department and be provided to the Office of the Law Clerk and Parliamentary Counsel as soon as is practicable in light of the pandemic, but, in any event, not later than November 30, 2020, and, if this is not possible, the Clerk of the Privy Council may request an extension of no more than seven days, by writing a letter to the committee, (ii) be vetted for matters of personal privacy information and national security, and, with respect to paragraph (y) only, be additionally vetted for information the disclosure of which could reasonably be expected to interfere with contractual or other negotiations between the Government of Canada and a third party, by the Law Clerk and Parliamentary Counsel within seven days of the receipt of the documents, (iii) be laid upon the table by the Speaker, at the next earliest opportunity, once vetted, and permanently referred to the Standing Committee on Health; and

.

(bb) within seven days after all documents have been tabled pursuant to paragraph (aa), the Minister of Health, the Minister of Public Services and Procurement, the Minister of Public Safety and Emergency Preparedness, and the Minister of Innovation, Science and Industry be ordered to appear separately as witnesses before the Standing Committee on Health, for at least three hours each.

https://www.ourcommons.ca/members/en/votes/43/2/13

Seems lovely on the surface, until you stop to think about it. There are many meaningful questions that simply don't make it into the motion. The Conservatives only complain about the handling and implementation of this so-called pandemic. They have no criticism or questions for the declaration, or premeditation. This Motion is done to divert attention from the real issues.

2. Questions Conservatives Should Be Asking

[1] Why was modelling from Imperial College London even used in the first place? Why wasn't his connections to Gates discussed openly, and his record for failures?

[2] Why are we still relying on doomsday modelling that is at best unreliable?

[3] Has this virus even been properly isolated and purified? If not, then how can any progress be made at all?

[4] Why isn't the error rate of these PCR tests being discussed? Or the admitted lies and fabrications? It's not much of a secret that they are unreliable at best. So why use them at all? Why is the focus simply on getting them faster?

[5] Why no mention of the fact that there is no real evidence that masks work? Even the World Health Organization has come forward and admitted that?

[6] What science is there is telling people to remain 2 meters apart, when even the WHO only ever lists 1 meter on their website?

[7] How are the "group sizes" determined? BCPHO Bonnie Henry openly admits there's no science behind it, so how are these decisions made?

[8] Does the Government really find it legal and justified to order entire industries to close down? How are so-called non-essential businesses determined anyway?

[9] Why is Theresa Tam's involvement with WHO being swept under the rug? Why is there no mention that Chrystia Freeland is a Trustee at the World Economic Forum? Does the talk about the "GREAT RESET" not set off any alarm bells with anyone?

[10] Instead of pushing for a vaccine, why is there no mention about the side effects going on in various trials? Or that this virus has a 99.9% survival rate anyway?

[11] Why is there no concern over the monetization of the vaccine trials, or of the extensive lobbying that has gone on behind the scenes?

[12] Why did Dominic LeBlanc openly suggest in April that laws should be passed to combat misinformation?

[13] Why is Canada subjected to the legally binding International Health Regulations of the WHO, and why did WHO write the 2005 Quarantine Act for Canada?

[14] Why are all other causes of death, and preventative care being ignored in favour of an overblown pandemic?

[15] Why is there no discussion (or even mention) about the various legal challenges filed against these arbitrary pandemic measures?

[16] Why no inquiry into the media's complicity and willingness to be used as propaganda outlets, promoting an obviously false narrative? They obviously have a price.

[17] Why no mention of the social media collusion?

[18] Why have politicians (Provincially and Federally), abdicated their duties to govern and just handed everything over to unelected bureaucrats?

[19] Why is CANZUK still being pushed?

[20] Why is increased immigration still being pushed?

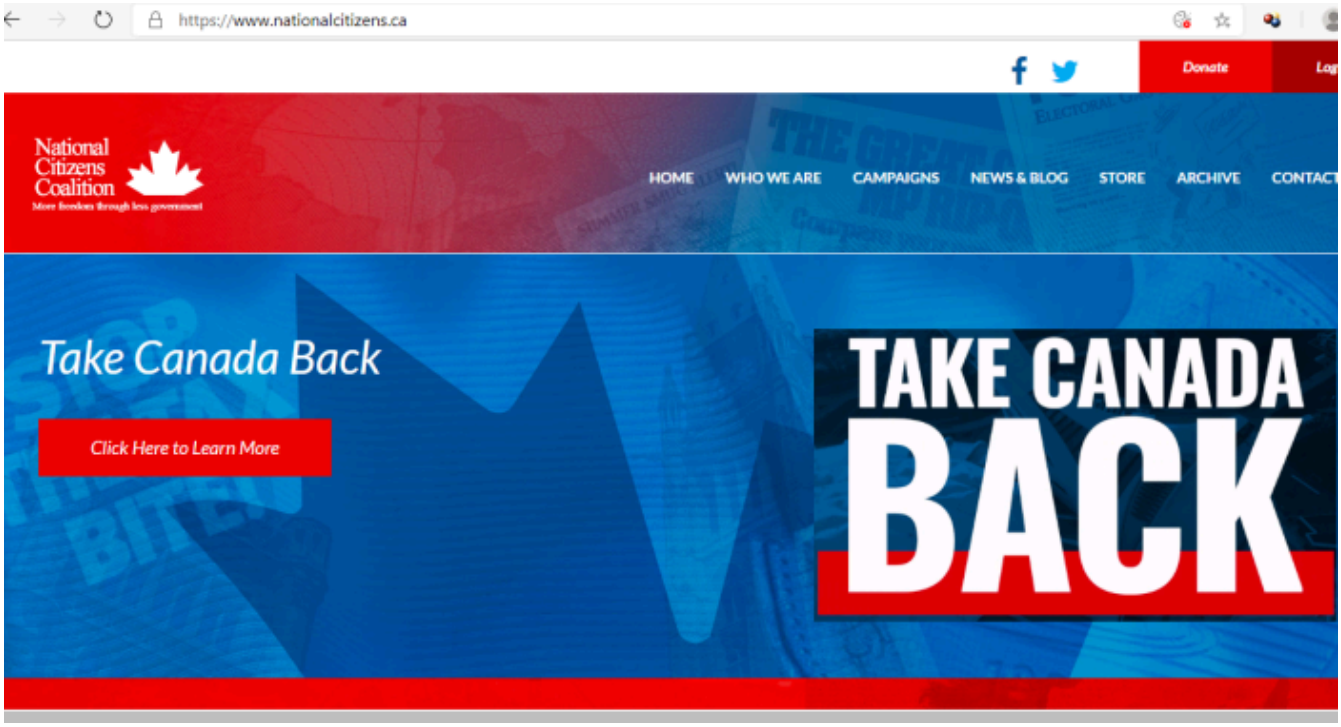
[21] Why are fake refugees from the U.S. still coming into Canada, and why has Roxham Road almost disappeared from media coverage? Is this coordinated?

[22] Are coronavirus internment camps coming, and if not, why put out requests for proposals?

[23] Are forced curfews/lockdowns coming?

There are more of course. But by refusing to ask these kinds of questions, it becomes clear that the Conservative motion claiming to hold the Government accountable is entirely for show.

3. Rempel Deflects With Minor Issues



Michelle Rempel Garner @MichelleRempel · Oct 25
I looked up the rules you're supposed to help people set:
Face masks are madatory for customers as well as our employees, who will be undergoing daily health checks. As a means of contact tracing, a record will be kept of all lounge visitors for 30 days.
Patty Hajdu @PattyHajdu · Oct 25
Following public health rules is important to me. I wear my mask at all times at Toronto Pearson, and only take it off to eat or drink, as allowed.
twitter.com/thanasipaby/sta...

https://twitter.com/MichelleRempel/status/1320516639662788611

On some level these "gotchya" moments are entertaining to see. Hypocrisy by a public official is always noteworthy. However, in light of the hard questions that ***AREN'T*** being asked (see above items), it seems a cheap way to score points.

Notice that's there's no pointed questions about why masks are being pushed on the public in the first place. No real inquiry into how necessary these restrictions are in the first place. These tweets don't mean much when the difficult issues are not being advanced.

4. Conservatives Are Token Opposition

Cathy's Secretary (October 23, 2020)

00:02 06:36

Cathy's Response (October 30, 2020)

00:00 00:00

From 2 recent conversations with my MP's secretary. Note: the Member of Parliament calls herself a "conservative" and claims to oppose the Trudeau Liberals. A few takeaways here.

[A] Canada is in fact subject to the dictates of the World Health Organization. Article 21(A) of the WHO Constitution specifies quarantine measures, and Article 22 says it's binding unless a country opts out early enough. Also, the International Health Regulations, (IHR), are legally binding. Either the CPC is being deceitful, or are absolutely clueless.

[B] Apparently Erin O'Toole has backed off on his stance supporting the use of the Emergencies Act. The claim is that he only supported it because so little was known. Assuming that's true, then why the demand to know why the Government didn't use it? And why the instinct to be an authoritarian?

[C] The CPC still supports flooding Canada with large numbers of people in the middle of a "pandemic". How exactly can we ensure safety, when there is a 2 week gap before infection

shows? And why have immigration at all when Canada has its highest unemployment ever?

5. Conservatives Are Globalists At Heart

Conservative

Erin O'Toole Parliamentary Secretary to the Minister of International Trade

Mr. Speaker, I would like to welcome my friend back to the House. I remind him that in June he stood in this place and asked why the government had not moved forward on this important FIPA with China. We have, and now he is still complaining once again. On CBC on the weekend, he was spreading myths about this FIPA.

The "P" in FIPA is for protection. This is about protecting Canadian exporters who are selling into that market, and it is the 30th FIPA Canada has signed over 20 years. This is good for our exporters. It is good for jobs.

Erin O'Toole
@erinotoole
Justin Trudeau closed down our pandemic early warning system in 2019. 👇
We took the batteries out of our smoke detector, right before the pandemic hit.
HAVE WE LEARNED
Watch again

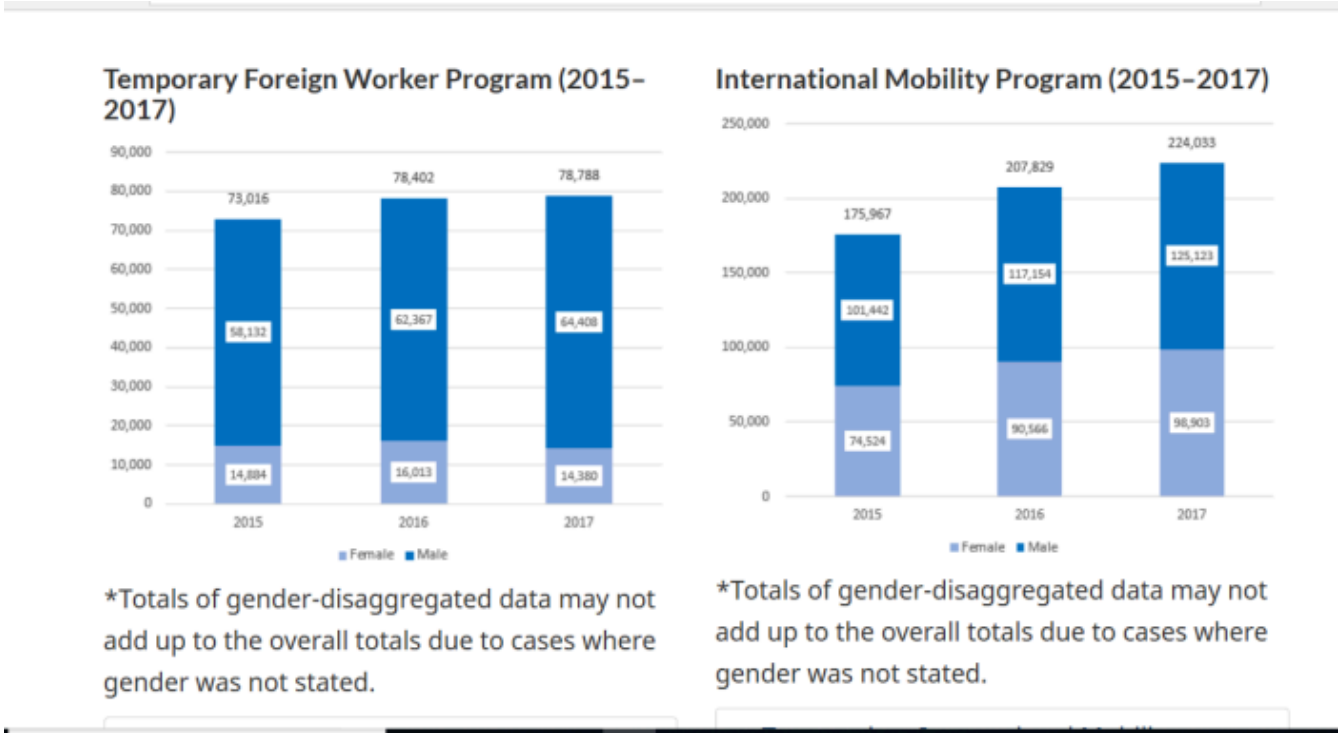
It's also sickening that O'Toole and the Conservatives continue pushing for CANZUK, which is a literally erasure of borders. O'Toole recently tried to justify is as a way to stand up to Communist China. That falls flat, however, when it's pointed out that the CPC enthusiastically supports FIPA. This party is not, and will never be, anything more than the illusion of opposition, to ward off and co-opt real populist alternatives.

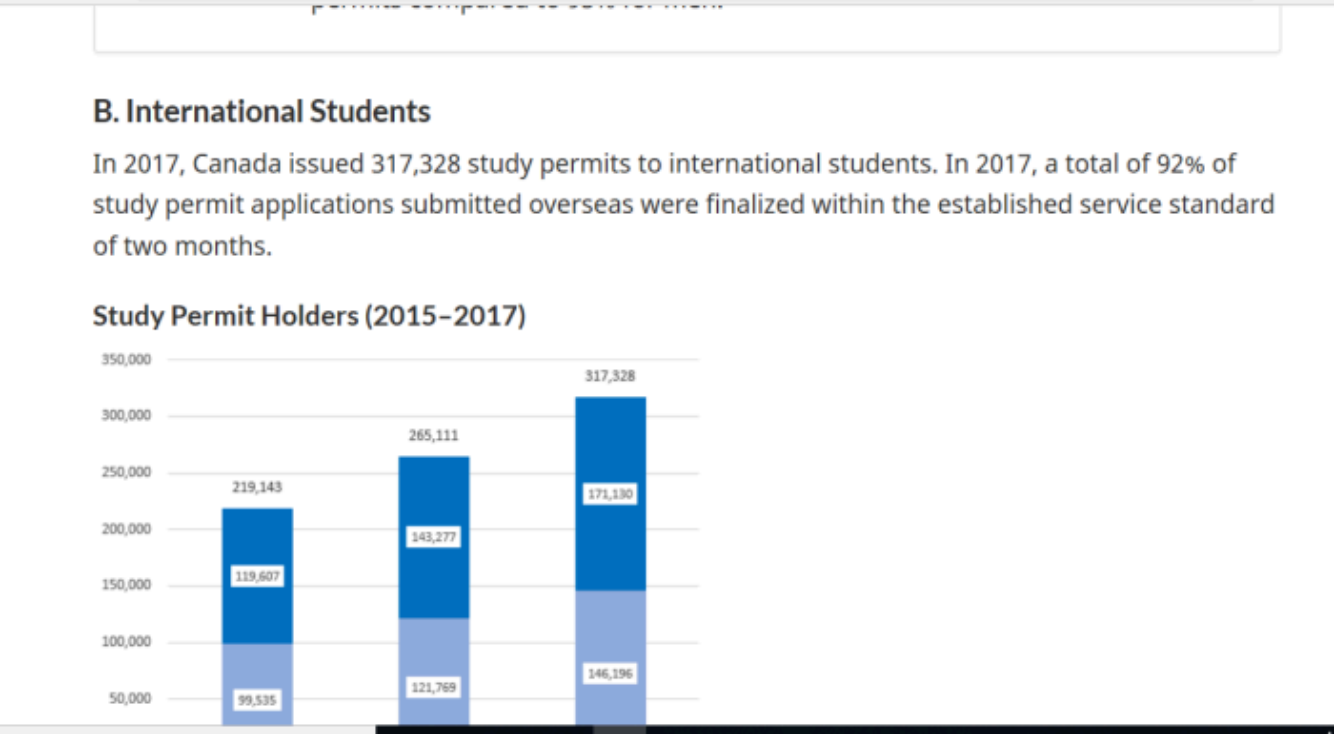
O'Toole also complains that Trudeau was 2 months late closing the border, but the border was never actually closed. Moreover, he seems fine with even higher levels of immigration.

And while complaining that the borders should have been closed (in regards to the pandemic), O'Toole is on record saying that he wants to expand CANZUK, to "let more and more countries in". There's no indication that he has changed his mind at all on this. Then we get to this little gem:

00:00 00:27

By the way, it's not just 300,000 or 400,000 people coming into Canada each year. That's not even close.





This issue has been addressed countless times here, but the amount of people entering Canada is much, much higher than what the public is lead to believe.

Open borders, while in the middle of a pandemic.
And all while irrelevant things are argued in Parliament

BORDERS (CANADA), CANADA, CANADIAN BILLS, GLOBALISM, HEALTH, HUMAN RIGHTS, VACCINES, VOTING PROCESS, WARS

One Reply to "CPC; O'Toole; Rempel Act As Gatekeepers In "Pandemic" Opposition"

Michael Comeau

NOVEMBER 4, 2020 AT 5:12 AM

That is a lot of alarm bells going off. Extremely interesting, concerning (aa) this is built in treason, crime, fraud and intention to defraud and conduct private business deals and ensure kickbacks etc, hiding it in national security, on matters pertaining to a Chinese bio-weapon, which is an act of war, and spending more to China to develop vaccines, is treason, working with the enemy.

The social media collusion, can include social media censorship, and this is done with the big tech companies, and look at who owns, controls, votes and edits that, they even read your emails and delete them too. In particular, the 5G bio-weapon as well as microwave towers, which cook from the inside out just like microwave ovens, therefore, pneumonia etc. no link to vaping and the neurotoxins, microwave towers on senior and care facilities, or nutritional deficiencies, or toxic anti viral drugs, or using trauma and scare tactics to scare people to death, which is mind control, but that is another story.

When you say, "conservatives are globalists" this is partly true, more correct is, "conservatives are practicing liberalism and involved in treason and selling out the country" this started with the Avro Arrow, the CF-105 Arrow, which is being redeveloped by real nationalists, not traitors.

You may also consider that foreign war vector scenarios are designed to weaken the competitor nation, and who on this planet would not want to do that, especially with our natural resources, power, space, aerospace, mining industries, not counting the ones that have been obliterated by "selling out the country" total treason, economic and industrial genocide, and topping that off with the illegal Multiculturalism Act of the illegal 1982 Constitution, a minister of Defence that can't recognize an invasion, including the Chinese military troops in BC.

There is no actual virus, is there? Admitting there is and that it is a bio-weapon, includes that China is at war with us, why are we forced to buy made in China, why not Made in Canada? There are zero politicians and MPs talking about Made in Canada, look at the MPP record also.

The fact is, dictatorship totalitarian operations are in place to ruin us, by a bunch of traitors in government, people totally unqualified to be there or make any kind of decisions, people with allegiance not only to another country, but ideology, entities and organizations with agendas against nation state sovereignty, individual freedom, truth, health, family, prosperity, free enterprise, private property ownership.

You will discover there are endless amounts of debt created money for "crime, treason, genocide, war, immorality and enslavement by a bogus economic system, immigration and forced migration etc of people that should not be here and are not wanted here, you will find that tolerance is forced on white people, forced to accept governments masquerading as religions, and other genocidal practices against the founding people, who have the only valid enforceable law, which is the 1867 British North America Act. So you like to talk about law, eh, what about Peace, Order and Good Government? We do not have that now, as that is an impossibility with traitors and imbeciles and foreigners with arrogance without limit, who do not care one bit for real Canadians.

In the case of Tam, this is aiding and abetting the enemy, not her enemy of course, also this corruption includes terrorist financing, terrorism being the use of force or the threat of the use of force, which also is applied to the China PLA, peoples liberation army, stationed in BC, in addition to all the points of intel mentioned at CanuckLaw.ca, which are rather comprehensive,

and only the beginning or revelations. What does General Vance have to say about that? Eh? The is no Wannabe General, to ignore very real national security threats and totally compromised government is not really ethical is it? It does not conform to the Defence Doctrine, at least the book I have.

With the former Pierre Trudeau elimination of the Treason Act, for people to think treason is OK, you are in for a big surprise, along with sedition and subversion, including all those in the Education system.

Freeland is not saint either, with her book, and the Euro trade deal sell out the country to a dictator parliament that has ruined nations in Europe is also a disaster, obviously working against Canada, but of course, did you or anyone read the actual agreement, written by juvenile delinquents and a law firm with no clue about anything, again, who is behind all that treason? Don
t want to call it treason eh, selling out the country is normal eh? Normal for not a real Canadian, with real character and real values, true values, not super imposed garbage from somewhere else that is totally anti-Canadian to say the least.

So, red pill or blue pill, what's it going to be? At least with CanuckLaw, we actually have something to work with and be informed with and increase our awareness and resolution to be pro-active, it is not enough to know, we must do, achieve, excel, restore government, peace, order and good government, real Canadians, and end the lies and fraud and crime and genocide all in the name of the invisible coronavirus and super imposed medical tyranny of foreign governments and associated agents infiltrating here, enemies in plain sight…

The penalty of treason is ….
